## AMMUNITION BEING TRACED BY AGENT OF GOVERNMENT

Information was given out yesterday by Leon Bone, special investigator of the United States department of justice, to the effect that he had been engaged in tracing shipments of ammunition from Ogden and Salt Lake to the destination of the state.

When questioned on the matter yesterday evening, George E. Browning, secretary-treasurer of the Browning Brothers company of Ogden, made the following statement:

"It would be impossible for me to say of my own knowledge that shipments of cartridges made by our firm mostly to points in California were intended for use in Mexico, but from what I have been told by a representative of the government who visited me a few days ago and also the salesmen, I have good reason to believe so. Whether the ammunition went to Huerta or the leader of some other faction I do not know."

"Because of the heavy shipments from all over the country, I know that it has been impossible for us to get our orders filled in the east, except for the regular trade. Representatives of these Mexican factions have been gathering up war munitions all over the country. They not only want cartridges, but rifles and machine guns. The eastern manufacturers will not sell us ammunition other than for our regular trade, because they can get twice the price from European nations and also from representatives of Mexican leaders."

The impression seems to have gone out that our firm has an unlimited supply of ammunition and gunstacked up here in Ogden. Last month we received more than fifty telegrams from points in California, New Mexico, Arizona, Texas and other border states asking for arms and cartridges. One man, who probably represented one of the Mexican factions, wanted from 10,000 to 15,000 rifles and a million cartridges. And there seems to be nothing but money down there. Every man is willing to pay in advance, and in the case of several large shipments we have made to California and New Mexico we got the money before the goods were shipped."

J. W. Abbott, vice president and manager of the George A. Lowe company, the only other local house that deals in ammunition on a wholesale basis, in a similar conversation, emphatically stated that his firm had not shipped as much as a single cartridge to the warring factions in Mexico. He stated further that it would be impossible for his firm to ship any amount of ammunition to any person or firm without the full knowledge of the purpose for which it was to be used and that the George A. Lowe company had made no shipments other than to regular customers to be used for legitimate purposes in this country.

## BISHOP GLASS GIVEN A RECEPTION IN SALT LAKE

Hanna, who is to conduct the installation of Bishop Glass into his new position as bishop of Salt Lake Catholic diocese, arrived in Ogden this morning and will remain here until tomorrow. He met at the Union depot by Father Slattery of St. Joseph's church, and taken to the church prior to rest preparatory to the duties which are before him tomorrow.

He will depart for Salt Lake City tomorrow morning at 7:30 o'clock.

The installation will be one of the most notable events in the ecclesiastical history of Salt Lake. It will begin promptly at 10 o'clock with a procession from the episcopal residence to St. Mary's cathedral. The new bishop expressed himself as being pleased to be the guest of the Catholics of the diocese, and declared that he hopes as many as possible of his flock would attend. He said that he hoped the affair would not be regarded as all exclusive, as he wished to meet all classes in his diocese, the rich as well as the poor. He expressed the hope particularly that as many as possible from outside of Salt Lake would attend the dinner. The banquet will not be formal. The women as well as the men will attend. Reservations have been made for a large number of Catholics expected at the banquet from Ogden, Park City and Eureka.

On first call prices were up 3 to 4 points and by the end of the second hour prices had regained most of yesterday's losses. Recoveries ranged from 17 to 18 points or almost a dollar a bale.

## MAYOR AND HIS TWO ASSOCIATES TO BE CENSURED

Tentative plans for injunction proceedings against the city board of commissioners have been made by protesters against the issuance of the 50-year franchises recently granted the Utah Light & Traction company and the Utah Power & Light company for the distribution of gas and light in the city. It is contended that a great majority of the taxpayers of Ogden are opposed to the terms of the franchises and that the city board of commissioners acted unlawfully and not in the better interests of the city in granting the franchises last Thursday.

The proceedings will be in the form of a restraining order to prevent the city board of commissioners from making the franchise ordinances operative, to the end that they will become null and void. The exact nature of the pleadings has not been determined by attorneys John G. Willis and R. S. Farnsworth who will represent the protesters.

Former State Senator George J. Kelly, O. A. Parmley, J. J. Brummitt and O. A. Kennedy, representing the Ogden Association of Real Estate Men, the Ogden Chamber of Commerce and the Socialist party of Ogden, are the principal instigators of the proposed legal proceedings, and they state that the matter will be taken up in the courts in the course of a short time. It is said that the only defendants in the case will be the city board of commissioners, consisting of Mayor A. G. Fell and Commissioners Chris Flygare and T. Samuel Browning. The companies to whom the franchises were granted will not be made parties to the action.
